

**15 Beech Road, Epsom, Surrey, KT17 4NH**

<b>Ward:</b>	<b>College Ward;</b>
<b>Site:</b>	<b>15 Beech Road, Epsom, Surrey, KT17 4NH</b>
<b>Application for:</b>	<b>Proposed ground and first floor rear extension, ground and first floor side extension and internal alterations</b>
<b>Contact Officer:</b>	<b>Tom Bagshaw</b>

**1 Plans and Representations**

- 1.1 The application is referred to committee as it was subject to a call in request by Councillor Julie Morris.
- 1.2 The Council now holds this information electronically. Please click on the following link to access the plans and representations relating to this application via the Council's website, which is provided by way of background information to the report. Please note that the link is current at the time of publication, and will not be updated.

Link: <http://eplanning.epsom-ewell.gov.uk/online-applications/applicationDetails.do?activeTab=documents&keyVal=QA7I6LGYHSR00>

**2 Summary**

- 2.1 The proposal seeks planning permission for the erection of a single and two storey side extension, with a single and two storey rear extension and a front porch
- 2.2 The proposed two storey side extension is a modest size and would appear subordinate to the main property. It is set back from the front of the property and set in from the boundary of the neighbouring property by 1.1 metres and would maintain characteristic gaps between properties preventing a terracing effect. As such, it would not result in any unacceptable impact upon the character of the area or appearance of the property.
- 2.3 The proposed front porch and single storey side extension are designed to be subordinate to the main dwelling and are in keeping with the character of the property and the surrounding area. The roof form of the extensions are in keeping with the main property.

3 September 2020

- 2.4 The two storey rear and single storey rear extension are only visible from the rear of the property. It is noted that the two storey rear extension would be visible from the gardens of neighbouring properties. However, this is not considered to be significant enough to warrant the refusal of the scheme on these grounds. As such the proposed rear extensions are considered to be acceptable in terms of design.
- 2.5 The materials of the proposals would match the existing property and therefore would be in keeping with the character of the surrounding area..
- 2.6 The proposed side extensions are separated from the boundary of the neighbouring property at No. 13a Beech Road. They would not be located adjacent to any useable private amenity space and they are located next to two windows both of which do not serve habitable rooms. As such, the proposed extensions would not be considered to result in any unacceptable impacts upon neighbouring amenity in terms of overbearing, overshadowing or daylighting/sunlighting.
- 2.7 The proposed single storey rear extension is 3 metres in depth and would not project beyond the rear of the building lines of either No. 17 or No. 13a Beech Road. As such, it is not located adjacent to any useable private amenity space at either property and it is not of a height or massing that would result in any unacceptable impacts upon the neighbouring properties in terms of overbearing, overshadowing or daylighting/sunlighting.
- 2.8 The proposed two storey rear extension would not breach the BRE 45 degree daylighting/sunlighting guidance to both neighbouring properties and it would not project beyond the rear building line of either property. As such, it would not be considered to result in any unacceptable impacts upon either property in terms of overbearing, overshadowing or daylighting/sunlighting.
- 2.9 The proposal will have conditions restricting the use of the flat roofs of the property to maintenance purposes only and the side windows above ground floor will be required to be none openable and obscurely glazed to 1.7 metres from finished floor level and as such, the proposal will not result in any unacceptable impacts upon neighbouring amenity in terms of overlooking.

### **3 Site description**

- 3.1 The property is located within a built up area. The Site is comprised of a semi-detached property in an area comprised mainly of semi-detached dwellings. The property is located on the south side of Beech Road.
- 3.2 The property is not listed nor is it located within a Conservation Area.

3 September 2020

#### **4 Proposal**

- 4.1 The application seeks planning permission for the erection of a single and two storey side extension, a single and two storey rear extension and a front porch.
- 4.2 The proposed two storey rear extension would be 2.5 metres in depth; 5.5 metres to the eaves; 7.9 metres to the roof ridge; and 3.4 metres in width.
- 4.3 The proposed single storey rear extension would be 3.2 metres in height; 3 metres in depth; and, 7.6 metres in width.
- 4.4 The proposed two storey side extension would be 7 metres in depth; 5.6 metres in height to the eaves; 8.2 metres to the ridge; and 1 metre in width.
- 4.5 The proposed single storey side extension would be 3.2 metres in height; 8.2 metres in depth; and, 0.8 metres in width.
- 4.6 The proposed porch would be 0.7 metres in depth; 3 metres in height to the eaves; 3.6 metres in height to the roof ridge; and 4.2 metres in width.

#### **5 Comments from third parties**

- 5.1 The application was advertised by means of letters of notification to 11 neighbouring properties. To date (07.09.2020) 9 letters of objection have been received regarding:
  - Overdevelopment
  - Loss of light to 13a
  - Overbearing
  - Contrary to Householder design Guidance
  - Lack of spacing between properties
  - Materials out of character
  - traffic/parking implications
- 5.2 8 letters of support were received regarding:
  - Redevelopment of an old house
  - Extensions in keeping
  - No out of character due to mixed composition of surrounding area

## 8 Planning Policy

### National Policy Planning Framework (NPPF) 2019

Chapter 4:                      Decision Making

Chapter 12:                    Achieving well-designed places

### Core Strategy 2007

- Policy CS01 - General Policy
- Policy CS05 - The Built Environment

### Development Management Policies Document 2015

- Policy DM09 - Townscape Character and Local Distinctiveness
- Policy DM10 - Design Requirements

### Householder Applications: Supplementary Planning Guidance 2004

## 9 Planning considerations

9.1 Section 38 (6) of the Planning and Compulsory Purchase Act 2004 requires that applications be determined in accordance with the plan unless material considerations indicate otherwise.

9.2 The main issues identified in this case are design of the proposal; and its impact upon the character and appearance of the area, the neighbouring amenity (eg. Light, privacy, outlook) and in addition other material considerations, in this case there is a potential 'fallback' position under permitted development which should be given appropriate weight in decision making.

### **Design and Character**

9.3 The NPPF promotes attractive environments by creating well-designed buildings in terms of appropriate massing, bulk, materials and details, and in doing so, raising the profile of the borough in a positive way.

3 September 2020

- 9.4 Paragraph 3.7.5 of the Core Strategy states that new development should enhance and complement local character, and be capable of integrating well into existing neighbourhoods. Paragraph 3.7.6 goes on to state that The Council will expect developments to be of a high quality, creating a safe environment which enhances the public realm and which positively contributes to the townscape.
- 9.5 Policy CS05 also states that the settings of heritage assets such as historic buildings, conservation areas, archaeological remains, ancient monuments, parks and gardens of historic interest will require higher standards of design to protect and enhance these assets.
- 9.6 DM10 (Design Requirements for New Developments) identifies the most essential elements which contribute toward the character and local distinctiveness of a street or an area which should be respected, maintained or enhanced, and includes the following:
- Prevailing development typology, including house type, sizes, and occupancy;
  - Prevailing density of the surrounding area;
  - Scale, layout, height, form, massing;
  - Plot width and format which includes spaces between buildings;
  - Building line build up, set back, and front boundary; and
  - Typical details and key features such as roof forms, window format, building materials and design detailing of elevations, existence of grass verges etc.

*Rear two storey and single storey extension*

- 9.7 The proposed two storey rear and single storey rear extensions would not be visible from the streetscene. However, they would be visible from the rear gardens of neighbouring properties.
- 9.8 Single storey rear extensions are common in the surrounding area and therefore this element of the proposed extensions is considered to be acceptable in terms of principle. The extension is not of an excessive size or scale and would not have any unacceptable impacts upon the design or character of the area. Therefore, this element of the proposal is acceptable in terms of design and character.

3 September 2020

- 9.9 It is noted that two storey rear extensions are not common in the surrounding area. However, the location of the proposed two storey rear extension is not considered to be detrimental to the character of the area and the surrounding character is not a conservation area. The two storey rear extension is not considered to be of a size or scale that would have any detrimental impacts upon the character or appearance of the surrounding area from the rear of the property and would be acceptable in terms of design.

*Single and two storey side extension.*

- 9.10 The proposal include a two storey/single storey side extension. neighbours have raised that the prosed extensions would be out of character and disproportionate with the streetscene

- 9.11 The proposed two storey side extension is set back from the front of the property by 0.5 metres and is set in from the boundary of the neighbouring property by 1.1 metres. The extension is a modest size with a width of 1 metre. This is well below 50% the width of the original property which has a width of 5.9 metres. Therefore, the design of the proposed extension would ensure that the extension remains subordinate to the main dwelling and officers consider this to be a modest and proportionate addition to the property.

- 9.12 The proposed single storey side extension would be set 0.3 metres from the boundary of the property which would allow space for guttering. The extension is a modest size with a width of 1.8 metres and in unison with the two storey side extension would not be considered to result in an unacceptable increase in the bulk or massing of the property and is design to be proportionate to the main property.

*Porch*

- 9.13 The proposed porch would span the width of both the single storey and two storey side extension and as such form a part of their character.

- 9.14 The porch is designed to match the character of the main property and the roof relates well to the main dwelling. The main roof would be a mono pitch roof whilst the doorway would be a small gable end which relates to the front bay of the main dwelling.

- 9.15 Overall the porch is a modest addition and would not be considered to result in any acceptable impacts upon the character or appearance of the surrounding area as many nearby properties also feature front porches.

**Impact Upon Amenity**

Planning Committee      Planning Application  
Number: 20/00639/FLH

3 September 2020

- 9.16 Policy CS05 of the Core Strategy and Development Management Policy DM10 seeks to safeguard residential amenities in terms of privacy, outlook, sunlight/daylight, avoidance of visual intrusion and noise and disturbances.
- 9.17 The main dwelling to consider in an assessment of the impacts upon neighbouring amenity are the neighbouring properties at No. 17 Beech Road to the west and No. 13a Beech Road to the east.
- 9.18 In addition to policy and when considering the amenity impact of the proposal it is also identified that the applicant has a viable 'fallback' position, which should be given weight as a material consideration in this case.
- 9.19 A 'Fallback' position refers to what development could take place if planning permission under an application currently being considered is not granted. This might be as a result of permitted development rights or an existing planning permission.
- 9.20 In this case the applicant does not have a certificate of lawfulness to formally confirm that a rear extension is permitted development, but Officers confirm that a single storey rear extension to the height of 3m would be permissible and is a realistic prospect in this case.

*13a Beech Road*

- 9.21 The proposed two storey side extension would not exceed the existing depth of the property and would be set 1.1 metres from the neighbouring property at No.13a Beech Road. As the extension does not project beyond the existing rear of the property it is considered that it would not result in any overshadowing or overbearing issues that would warrant the refusal of the proposal.
- 9.22 Neighbour concern has been raised regarding the opening of a ground and first floor side window at No. 13a Beech Road being restricted by the two storey side extension and ground floor side extension. The proposed two storey side extension is set 1.1 metres from the boundary of the neighbouring property which in unison with the neighbouring properties separation from the boundary is considered to be sufficient to open these windows. Furthermore, these windows serve non-habitable rooms and thus it is not considered to result in any unacceptable loss of daylighting/sunlighting to any neighbouring habitable rooms.

3 September 2020

- 9.23 The proposed single storey side extension is set 0.3 metres from the boundary of the property. It is located adjacent to an area of No. 13a Beech Road which is not considered to be of a high amenity value and as such, the proposed single storey side element of the extensions would not be considered to result in any unacceptable overbearing, overshadowing or daylighting/sunlighting to the neighbouring property at No. 13a Beech Road. The proposal is set 0.3 metres from the boundary of the property which is considered to be sufficient to allow for the opening of the ground floor window for ventilation purposes.
- 9.24 The proposed two storey rear extension is set 2.1 metres from the boundary of the neighbouring property at No. 13a Beech Road and is approximately 2.5 metres in depth. The height and depth of the extension would not breach the BRE 45 degree Daylighting Sunlighting guidance to any windows at neighbouring No. 13a Beech Road. The property at 13a Beech Road has a natural deeper rear building line and is approximately 3.5 metres in depth beyond the rear of No. 15 Beech Road and as such, the proposed extension would not be project beyond the existing rear of No. 13a Beech Road. Therefore. The location of the extension in unison with its height and depth would not be considered significant enough to warrant the refusal of the scheme on the ground of overbearing to No. 13a Beech Road.
- 9.25 The proposed single storey rear extension would be set 0.3 metres from the boundary of No. 13a Beech Road and is 3 metres in depth and it would not project beyond the rear building line of the neighbouring property. It is not located adjacent to any useable private amenity space nor is it a height scale or location that is considered to result in any unacceptable impacts upon neighbouring amenity in terms of overbearing, overshadowing or daylighting/sunlighting.
- 9.26 The proposed porch would be located at the front of the property and would not be situated adjacent to any useable private amenity space. As such, the proposed front porch would not be considered to result in any unacceptable impacts upon neighbouring amenity in terms of overbearing, overshadowing, overlooking or daylighting/sunlighting.
- 9.27 The proposed two storey side extension includes a first floor window on the side elevation. In order to ensure that this window does not cause any unacceptable overlooking impacts a condition will be imposed which requires the window to be obscurely gazed an non openable below 1.7 metres from finished floor level. Furthermore the roof of the single storey extension will be conditioned to ensure that it is only accessible for maintenance purposes. Therefore, the proposals are not considered to result in any unacceptable overlooking impacts to the neighbouring property at No. 13a Beech Road.

*17 Beech Road*

3 September 2020

- 9.28 The proposed single storey rear extension is approximately 3 metres in depth and would abut the boundary of the neighbouring property at No. 17 Beech Road. The 3.2 metre height of the extension would not be permissible via permitted development however it is not uncommon for 3 metre depth extensions to be built along neighbouring boundaries via permitted development rights. Officers consider that the additional height of 0.2 metres to be the main issue in regards to the neighbouring amenity due to the presence of what is a viable fall back option. Furthermore, the neighbouring property at No. 17 features its own single storey rear extension of a similar depth. These material considerations accounted for the additional 0.2 metres above that which would be permitted development would not result in any unacceptable impacts upon the neighbouring property in terms of overbearing, overshadowing or daylighting/sunlighting to No. 17 Beech Road.
- 9.29 The proposed two storey rear extension is set 2.5 metres from the boundary of the neighbouring property at No. 17 Beech Road and is approximately 2.5 metres in depth. The height and depth of the extension would not breach the BRE 45 degree Daylighting sunlighting guidance to any windows at neighbouring No. 17 Beech Road. The property at 17 Beech Road has an existing single storey rear extension that abuts the boundary and is approximately 3 metres in depth and as such, the proposed extension would not be of a location that would have any significant overshadowing impacts to the neighbouring property due to the presence of an existing extension of a greater depth. The location of the extension in unison with its height and depth would not be considered significant enough to warrant the refusal of the scheme on the ground of overbearing to No. 17 Beech Road.
- 9.30 Neither properties feature side facing windows above ground floor level and the extension will be conditioned to only be accessible for maintenance purposes. Therefore it would not be considered to result in any unacceptable overlooking impacts to the neighbouring property.
- 9.31 The proposed porch is located at the front of the property and on the eastern side of the property. It would not be in close proximity to No. 17 Beech Road and as such, it would not be considered to have any unacceptable impacts upon neighbouring amenity in terms of overbearing, overshadowing, overlooking or daylighting/sunlighting to No. 17 Beech Road.

## 10 Conclusion

- 10.1 The proposed two storey side extension has no unacceptable impacts in terms of design and character or neighbouring amenity as it is not located adjacent to any useable amenity space and is a modest size and scale.

3 September 2020

- 10.2 The proposed single storey side extension and front porch are modest additions to the property and relate well to the main dwelling. They are not of a size scale or location that would result in any unacceptable impacts upon neighbouring amenity to the neighbouring property.
- 10.3 The single storey rear extension is not visible from the streetscene and it would not project beyond the rear of the neighbouring properties and as such it would not result in any unacceptable impacts upon neighbouring amenity.
- 10.4 The proposed two storey extension would not have unacceptable visual impact to the character of the area due to its located at the rear of the property. It is a sufficient separation from both neighbouring properties in order to mitigate any amenity impacts to neighbouring windows in terms of daylighting/sunlighting or outlook.
- 10.5 There are therefore no harms that can be attributed to the proposed development that would warrant the refusal of the scheme.

## 11 Recommendation

### 11.1 Approve subject to conditions

Planning permission is granted subject to the following conditions:

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

**Reason:** To comply with Section 91(1) of the Town and Country Planning Act 1990 as amended by Section 51 (1) of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out in accordance with the following approved plans:

Drawing No 04 Rev D – Proposed Plans  
Drawing No 05 Rev D – Proposed Elevations

**Reason:** For the avoidance of doubt and to ensure that the development is carried out in accordance with the approved plans to comply with Policy CS5 of the Core Strategy (2007).

3. Prior to the occupation of development hereby approved, details and samples of the external materials to be used for the development shall be submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with the approved details.

**Reason:** To secure a satisfactory appearance in the interests of the visual amenities and character of the locality in accordance with Policy CS5 of the

Planning Committee      Planning Application  
Number: 20/00639/FLH

3 September 2020

Core Strategy (2007) and Policies DM9 and DM10 of the Development Management Policies 2015.

4. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking or re-enacting this Order) no windows or other openings (other than those hereby approved) shall be formed in the side walls of the extensions hereby approved without the prior written consent of the Local Planning Authority.

Reason: To protect the amenities and privacy of the occupiers of the adjoining residential properties in accordance with Policy DM10 (Design Requirements for New Developments including House Extensions) of the LDF Development Management Policies Document Adopted October 2015.

5. The roof of the extension hereby permitted shall not be converted or used as a balcony or a sitting out area, and no access shall be gained except for maintenance purposes.

Reason: To protect the amenities and privacy of the adjoining residential properties in accordance with Policy DM10 (Design Requirements for New Developments including House Extensions) of the LDF Development Management Policies Document Adopted October 2015.

6. Before any occupation of the development hereby permitted, any windows above ground floor level on the east elevation shall be constructed so that no part of the framework less than 1.7m above finished floor level shall be openable. Any part below that level shall be fitted with, and retained in, obscure glazing of a patterned type only which shall thereafter be retained as such. Obscure glazed windows should be obscured to minimum of level 3 of the Pilkington Scale. The use of any type of film or material affixed to clear glass is not acceptable for the purposes of this Condition.

Reason: To protect the amenities and privacy of the adjoining residential properties in accordance with Policy DM10 (Design Requirements for New Developments including House Extensions) of the LDF Development Management Policies Document Adopted October 2015

Informative(s):

- 1 In dealing with the application the Council has implemented the requirement in the National Planning Policy Framework to work with the applicant in a positive and proactive way. We have made available detailed advice in the form of our statutory policies in the Core Strategy, Supplementary Planning Documents, Planning Briefs and other informal written guidance, as well as offering a full pre-application advice service, in order to ensure that the applicant has been given every opportunity to submit an application which is likely to be considered favourably.

Planning Committee      Planning Application  
Number: 20/00639/FLH

3 September 2020

- 2      Your attention is drawn to the need to comply with the relevant provisions of the Building Regulations, the Building Acts and other related legislation. These cover such works as - the demolition of existing buildings, the erection of a new building or structure, the extension or alteration to a building, change of use of buildings, installation of services, underpinning works, and fire safety/means of escape works. Notice of intention to demolish existing buildings must be given to the Council's Building Control Service at least 6 weeks before work starts. A completed application form together with detailed plans must be submitted for approval before any building work is commenced.
  
- 3      You have been granted planning permission to build a residential extension. When undertaking demolition and/or building work, please be considerate to your neighbours and do not undertake work before 8am or after 6pm Monday to Friday, before 8am or after 1pm on a Saturday or at any time on Sundays or Bank Holidays. Furthermore, please ensure that all vehicles associated with the construction of the development hereby approved are properly washed and cleaned to prevent the passage of mud and dirt onto the adjoining highway. You are advised that the Council does have formal powers to control noise and nuisance under The Control of Pollution Act 1974, the Clean Air Acts and other relevant legislation. For further information and advice, please contact - Environmental Health Department Pollution Section.
  
- 4      The Party Wall Act 1996 requires a building owner to notify, and obtain formal agreement from, any adjoining owner, where the building owner proposes to:
  - carry out work to an existing party wall;
  - build on the boundary with a neighbouring property;
  - in some circumstances, carry out groundwork's within 6 metres of an adjoining building.

Notification and agreements under this Act are the responsibility of the building owner and are quite separate from Building Regulations, or Planning Controls. The Building Control Service will assume that an applicant has obtained any necessary agreements with the adjoining owner, and nothing said or implied by the Council should be taken as removing the necessity for the building owner to comply fully with the Party Wall Act. Further information and advice is to be found in "The Party Walls etc. Act 1996 - Explanatory Booklet".
