

Product 1 – proposing purchasing one of these

Wireless 4G 1080P HD CCTV Security Camera IR-CUT Night Vision Outdoor Waterproof

Wireless 4G 1080P HD CCTV Security Camera IR-CUT Night Vision Outdoor Waterproof

Features:

1. Night vision function, with 10 meters effective night vision distance.
2. Using solar energy: One day of sunlight keeps the camera running for days. Realizing by four 18650 batteries, solar panels and smart standby mode, more durable in use.
3. Ultra low power consumption, longer standby time. Intelligent energy-saving and solar energy charging function, can achieve free-maintenance equipment all year round, very practical, environmentally friendly.
4. HD 1080P image quality, can watch and record HD videos, with clearer monitoring details.
5. No wires: Connect the network by inserting a 4G SIM card. Can place it anywhere without power supply. Access instant video and audio streams anytime and anywhere.
6. Good performance: IP67 waterproof and moisture-proof. Can get energy from lights even in rainy days, prolonging battery life.
7. TF card storage. Store event snapshots by inserting TF cards, also support image and cloud storage.
8. PIR detection. The camera pushes the alert information to the user's phone when finding an intruder in the surveillance area.
9. Can add more cameras to monitor various devices, and monitor cameras by different users at the same time.

Specifications:

Main Control: Hisilicon Hi3518EV200
Image Sensor: **2MPx 1080P**
Video Stream:1920 * 1080/ 15fps 640 * 360/ 30fps
Video Mode: support automatic white balance, automatic gain control, automatic backlight compensation, digital wide dynamic
Night Vision Mode: automatic switch day and night
Infrared Distance:850 nm infrared, about 10 meters effective lighting distance
Lens: 2G2P HD lens F = 2.8 level FOV 120 degrees
Battery: 4 * 18650 lithium battery (**Not Included**), solar rechargeable battery
Battery Life: about 60 days in continuous rainy weather
Charging: solar energy continuous charging, support USB Port to charge about 6 hours
Wake up/ Sleep Time: 15S/ 30S/ 60S/ no dormancy
System: Lite OS
Audio Coding: AAC & G.726
MIC: High sensitivity-38 dB
Video Coding: H264
Network: **4G**
Network Protocol: TCP/ IP, HTTP, TCP, UDP, SMTP, DHCP, DNS, P2P
Status Indicator Light: blue & red LED

Product 2 – proposing to purchase two of these

Brinno Wildlife Camera

14 Months Battery Life Security Camera!

The Brinno MAC200 is a battery powered portable security camera, triggered by Motion Detection (PIR) or a Fixed Capture Rate (Time Lapse) or Brinno new Hybrid Mode[®] (Time Lapse +Motion Detection).

Brinno's MAC200 - Motion Activated Camera provides a whole new FAST/EASY PLAYBACK concept for you to EASILY review videos, as it automatically converts thousands of images into time lapse videos. This makes reviewing your videos easy and quick!
