

# Epsom & Ewell Local Plan Programme

Epsom & Ewell Borough Council June 2018

## Contents

1.	Introduction	3
2.	The new Epsom & Ewell Local Plan	5
3.	The Evidence Base	9
4.	Supporting Statement	10

### 1. Introduction

#### The form and content of the Local Plan Programme

- 1.1 The Local Plan Programme sets out a rolling project plan for the production of the documents that together comprise the Epsom & Ewell Local Plan. It identifies a timetable for their production that serves as a framework for monitoring and managing progress; identifies and allocations proportionate resources necessary to achieve our targets; and possible risks and constraints.
- 1.2 The Programme is designed to provide a rolling three-year project plan that informs the process and all of the interested parties and partners<sup>1</sup> about how and when the Local Plan will be brought forward. We periodically review and revise the Programme in response to circumstances necessitating a change in our plans.
- 1.3 Previous Local Plan Programmes and Development Schemes have typically been reviewed after being in place for two years or so. Revisions have normally been triggered by changes in national planning policies, such as the revocation of regional plans and the publication of the NPPF; and consequential changes in our approach to plan-making. Our progress against the milestones in the Programme is monitored each year in the <u>Annual Monitoring Report (AMR)</u>.
- 1.4 In accordance with good project management practise we will continue to monitor and review the Local Plan Programme annually and update it accordingly.

#### The current statutory Development Plan for the Borough

1.5 The Development Plan for the Borough is comprised of the following documents:

The Local Plan

- Epsom & Ewell Core Strategy 2007
- Plan E Epsom Town Centre Area Action Plan 2011
- Epsom & Ewell Development Management Policies Document 2015
- Revised Developer Contributions Supplementary Planning Document 2014
- Revised Sustainable Design Supplementary Planning Document 2016
- Parking Standards for Residential Development 2015
- Upper High Street, Depot Road and Church Street Development Brief 2012

Surrey-wide Documents

- Surrey Minerals Plan Core Strategy 2011
- Surrey Waste Plan 2008

<sup>&</sup>lt;sup>1</sup> Our partners in this process may include neighbouring local planning authorities, more distant authorities that either have or will in the future have an interaction with our housing market area, the County Council and strategic infrastructure providers.

- 1.6 In addition to the above documents we have also prepared and produced a number of useful and valued supplementary planning guidance documents. These amplify the policies and proposals of the Local Plan. Such additional local guidance is considered necessary and for that reason is believed to be consistent with national planning policy. The main role of these documents is to clarify and support local policy and it may be taken into account as a material consideration in relation to the determination of planning applications. These include the following documents:
  - Biodiversity and Planning in Epsom & Ewell 2012
  - Solar Panel Guidance for Domestic Installation 2011
  - Shopfront Design Guide 2012
  - Householder Applications 2004
  - Single plot and other types of residential infill development 2003
- 1.7 In order to respond to the higher objectively assessed housing need calculated using the government's standard methodology and Housing Delivery Test we are preparing a Masterplan for Epsom & Ewell. This document will initially function alongside our emerging Local Plan providing supporting evidence and information during the examination in public process. We anticipate that following the adoption of our new Local Plan that it will provide a supplementary planning framework that will contribute towards the transformation of the Borough into the 2040s.
- 1.8 We anticipate that the design-related guidance contained within the above documents will be reviewed. The new supplementary planning guidance may take the form of a design code for the Borough. It is envisaged that the code will be proactively used to support the delivery of the higher levels of housing growth anticipated during the new Local Plan period.

## 2. The new Epsom & Ewell Local Plan

#### Proposed Content

- 2.1 We anticipate that the new Epsom & Ewell Local Plan will cover the following policy components:
  - An appropriate housing strategy that responds to the government's assessment of objectively assessed housing need<sup>2</sup>
  - Revision of the Borough wide housing target to take account of objectively assessed housing need<sup>3</sup>; taking account of the relevant constraints affecting the ability of the development industry to deliver of growth
  - An overview of how the Borough Council will work with its housing market area partners to address unmet need<sup>4</sup>
  - A Strategic review of the Green Belt<sup>5</sup>
  - A review of our affordable housing delivery policy<sup>6</sup>
  - A new policy approach setting out how we will meet the accommodation needs of the Traveller Community<sup>7</sup>
  - New policies setting our approach towards heritage assets specifically in relation to the identification and designation of locally listed buildings and structures
  - A review of those existing policies that may impede our ability to respond positively to the government's objectively assessed housing need calculation. Policies under consideration for review include those relating to building height, housing density, housing mix and parking standards.
  - An appropriate infrastructure strategy that responds and complements the scale of new housing identified by the government's assessment of objectively assessed housing need. This will seek to bridge the gaps in capacity and funding that currently serve to constrain the necessary scale of new housing delivery required to meet the government's assessment of need<sup>8</sup>.
- 2.2 We also anticipate that the new Local Plan will include new site allocation policies relating to:
  - Green Infrastructure<sup>9</sup>

<sup>&</sup>lt;sup>2</sup> As set out in Core Strategy Policy CS8, which currently states that new housing will be located within the defined built up area and within the then remaining Hospital Cluster development sites, which have subsequently been largely built-out.

<sup>&</sup>lt;sup>3</sup> As currently set out in Core Strategy Policy CS7.

<sup>&</sup>lt;sup>4</sup> It is anticipated that this will take the form of a separate strategy or agreement siting outside of the Local Plan

<sup>&</sup>lt;sup>5</sup> As currently set out in Core Strategy Policy CS2.

<sup>&</sup>lt;sup>6</sup> As currently contained within Core Strategy Policy CS9

<sup>&</sup>lt;sup>7</sup> The new policy will replace the approach set out under Core Strategy Policy CS10.

<sup>&</sup>lt;sup>8</sup> A new policy that will replace the approaches set out under Core Strategy Policies CS12 and CS16.

<sup>&</sup>lt;sup>9</sup> Green Infrastructure is a term we use to describe a wide variety of assets that among other things contribute to our local biodiversity, our visual character and appearance, help to mitigate the adverse impacts of climate change and provide vital open space for our residents and those of adjoining areas.

- Major developed sites within the Green Belt
- Housing delivery
- Employment sites
- Retail centres
- Epsom General Hospital
- The University for the Creative Arts
- Transport networks
- 2.3 Some of these policies and site allocations were originally intended for inclusion within the Site Allocations Document<sup>10</sup>. That Document had advanced to the Submission Stage. Prior to submission we decided to alter our approach towards the progress of this document taking the decision to combine the emerging site allocations within the new Local Plan.

#### Coverage

2.4 The document covers the whole of the Borough. To date the Local Plan period has been identified as starting during 2015 and ending during 2032. This period was derived from the Kingston and North East Surrey Strategic Housing Market Assessment (June 2016), which provided an initial calculation of the Borough's objectively assessed housing need (in advance of the standard methodology). That document used 2015 as the baseline date for calculating objectively assessed housing needs. On that basis it may be appropriate that the Local Plan period be reset to start at 2017, which is the baseline date for the government's standard methodology; which could provide a Local Plan period end date during 2034.

#### Conformity

2.5 The new Local Plan will be in conformity with the NPPF. It will set out the scale of local housing need and the broad areas of the Borough that will be brought forward to deliver future housing. It will also set out our approach to meeting local affordable housing need through the development process.

<sup>&</sup>lt;sup>10</sup> That document comprised non-housing site allocations.

#### Timetable

Key Stages	Dates
Issues & Options and Call for Sites	September – December 2017
Consultations	
Consideration of Consultation	December 2017 – March 2018
Responses	
Preparation and Production of the	June 2018 – June 2019
Masterplan for Epsom & Ewell	
Preparation of the Epsom & Ewell Duty	September – October 2018
to Co-operate Engagement Plan	
Pre-Submission Public Consultation	October – November 2019
Date of Submission to Secretary of	December 2019
State	
Pre-Examination Meeting	January/ February 2020
Public Hearing	March/ April 2020
Estimated Date for Adoption	June 2020

#### Arrangement for Production

*Organisational Lead* Planning Policy Manager

#### **Political Management**

- 2.6 The review process will be managed by the Council's Licensing & Planning Policy Committee, who are responsible for approving draft policy options for public consultation and the subsequent Pre-submission stages.
- 2.7 Full Council approval will be required for the final adoption stage.

#### **Internal Resources**

Planning Policy Manager x1 FTE Senior Planning Policy Officer x1 FTE Planning Policy Officers x 0.85 FTE Planning Policy Administrator x1 FTE Conservation Officer x 0.6 FTE Economic Development Officer x 0.6 FTE

Other resources as required – likely to be deployed from within the wider Planning Department.

#### **External Resources**

2.8 Consultants will be engaged to aid the production of the necessary evidence base documents. External expertise has already been deployed in relation to the calculation of the initial 'objectively assessed housing need' and in preparing an assessment of the Borough's Green Belt; both being required under national planning policy. Internal knowledge and other resources will be deployed in order to optimise the value of external resources. Further studies will be produced, either in-house or by external consultants, as necessary.

2.9 Work on the Local Plan's Sustainability Appraisal (SA) report is being carried out in-house. It is possible that some external support, from colleagues in neighbouring Surrey authorities, could be provided in the form of peer review of the SA. In the past this has been provided by Planning Policy colleagues from neighbouring local planning authorities. Should it prove necessary, we will seek to replicate this approach.

#### **Stakeholder Resources**

- 2.10 We will work closely with neighbouring planning authorities and other strategic partners who have a tangible functioning relationship with the Borough to discharge our duty to co-operate. In a scenario where our Housing Strategy clearly and robustly demonstrates that it will not be possible to deliver our objectively assessed housing need in full (potentially because of insufficient housing land supply or infrastructure capacity) we will work with our neighbours and other strategic partners to identify solutions how this could be addressed across a wider area. It is anticipated that this will form a critical part of this particular review process and will require the deployment of resources from across the Borough Council, specifically requiring input from Committee Chairmen, Vice Chairmen and Senior Officers.
- 2.11 We will work closely with local partners to ensure that the emerging policies contribute positively to meeting our strategic objectives. Specifically we will seek to ensure that future community infrastructure needs are taken into account during the preparation of new policies.
- 2.12 We will engage directly with key local community groups including all local residents' associations, local political party groupings and other local interest groups, such as the Epsom Civic Society and the Campaign to Protect Rural England. Representatives of stakeholder groups will be invited to attend regular meetings or surgery sessions throughout the process, where they can informally discuss issues and options raised in the consultation.

#### **Community and Stakeholder Involvement**

2.13 The local community, specific consultation bodies and key stakeholders, including developers, will be invited to take part in the consultation process, with a view to identifying issues and working up suitable deliverable and developable options that accord with the NPPF.

## 3. The Evidence Base

3.1 Our new Local Plan is supported and informed by new evidence and a refresh of existing technical studies. This work conforms to national planning policy and guidance. It also takes account of relevant existing technical evidence that is available across north east Surrey and south west London.

#### Timetable

Documents	Publication Dates
Strategic Housing Market Assessment <sup>11</sup>	October 2016
Green Belt Study Stage 1	February 2017
Strategic Housing Land Availability Assessment <sup>12</sup>	July 2017
Traveller Accommodation Assessment	July 2017
Constraints Study	July 2017
Strategic Flood Risk Assessment Update	June 2018
Green Belt Study Stage 2	July 2018
Duty to Co-Operate Position Statement	June/ July 2019
Strategic Viability Assessment	June/ July 2019
Masterplan for Epsom & Ewell	June/ July 2019

3.2 The preparation and production of the above technical studies will include proportionate and necessary stakeholder engagement. This is most likely to relate to the methodology used by the technical study in question, rather than the outputs or conclusions. Any party who wishes to challenge the outputs from these technical studies may do so through the Local Plan process, where they have an opportunity to present alternative evidence.

<sup>&</sup>lt;sup>11</sup> Prepared in partnership with Royal Borough of Kingston, Elmbridge and Mole Valley Borough Councils.

<sup>&</sup>lt;sup>12</sup> Previous Local Plan Programmes have referred to Strategic Housing and Employment Land assessments. We already undertaken significant work on establishing our future employment needs into the future, so a joint study is no longer considered necessary.

## 4. Supporting Statement

#### Monitoring

4.1 Monitoring continues to be an important part of the planning-making process and will help gauge the effectiveness of policies and proposals. We will monitor a range of indicators to assess whether the policies and proposals are meeting the objectives set out in our Local Plan. The key findings will be published in the Annual Monitoring Report (AMR). The most recent, and previous AMRs are available to view on the Borough Council's website. The Local Plan AMR is normally the subject of a report to the Council's Licensing & Planning Policy Committee, following which it is published on the Council's website.

#### **Reviewing the Programme**

4.2 We will continuously monitor progress on the implementation of the Local Plan Programme. Progress will be monitored against the proposed timetable for our new Local Plan. Where milestones have not been reached, we will consider appropriate actions to ensure that positive momentum is maintained. When appropriate we will amend the Programme.

#### Strategic Environmental Assessments & Sustainability Appraisals

- 4.3 Strategic Environmental Assessments of policies, proposals and plans are required under the European Strategic Environmental Assessment Directive 2001/42/EC. These are required for plans and proposals that are likely to have significant effect on the environment. The on-going Brexit negotiations will not have an impact on the requirement to meet the Directive during the life of this Programme. It is anticipated that the requirements of the Directive will be maintained and incorporated into British law following the proposed divorce from the European Union.
- 4.4 Sustainability Appraisals differ in that they are a social, economic and environmental assessment. We believe it is important to take an integrated approach towards both the Strategic Environmental Assessment and Sustainability Appraisal and to consider the implications and alternatives at an early stage. This will ensure that our Local Plan documents reflect sustainable development objectives. The requirements of a Strategic Environmental Assessment will be incorporated into the Sustainability Appraisal, which will be undertaken on the emerging policies when bringing forward our new Local Plan.

#### Resources

4.5 In the past funding from the Housing Planning Delivery Grant was allocated to assist in the plan making process. This has helped fund external expertise to undertake specialist work on technical papers. It has been proposed that remaining Housing Planning Delivery Grant monies and other sources of funding will be used to finance future work.

- 4.6 Staffing resources for the timely production of the Local Plan remain a critical issue (see Risk Management section below). At present, the following inhouse resources can be drawn upon during the period covered by the Programme:
  - Planning Policy Manager x1
  - Senior Planning Policy Officer x1
  - Planning Policy Officers x 0.85 FTE<sup>13</sup>
  - Planning Policy Administrator x1
  - Other occasional staff resources including the Head of Place Development, Economic Development Officer, Conservation Officer, GIS officer, and the Strategic Housing Manager and other Service officers
- 4.7 We will continue to use external sources of expertise where appropriate, such as on specialist topics or where there is no existing capacity. It is anticipated that Surrey County Council will continue to provide assistance with transport, education and other infrastructure capacity matters. Additionally the Planning Policy Team continues to promote joint working initiatives, whenever these are practicable and relevant, with the other Local Authorities in East Surrey to help bridge the potential staff resource gap. This has worked in the preparation of technical evidence.
- 4.8 Members are kept informed of progress on the Local Plan primarily through Licensing & Planning Policy Committee meetings. Throughout the Local Plan process we will continue to run special evening sessions/ workshops for Members. These will impart additional information and opportunities for Members to feed-in their comments into the plan making process. The outputs of the sessions/ workshops will be reported to the Licensing & Planning Policy Committee.

#### Joint Working – The Duty to Co-operate

- 4.9 There are no proposals to set up a joint planning board with neighbouring authorities. Whilst such initiatives may provide value to the process elsewhere, there is no evidence to suggest that a joint planning board is required in northeast Surrey.
- 4.10 Nevertheless, we continue to work with other Surrey Districts and with Surrey County Council on sharing best practice, undertaking Sustainability Appraisals and where appropriate undertaking other initiatives. We have also been actively involved in joint projects with neighbouring authorities on subjects such as establishing a methodology for preparing Traveller Accommodation Assessments, preparing Strategic Housing Market Assessments, and managing flood risk (specifically in relation to the Hogsmill River). We continue to work effectively with colleagues across Surrey on strategic infrastructure planning.
- 4.11 We continue to explore meaningful mechanisms by which we can discharge our Duty to Co-operate with neighbouring local planning authorities and other key partners. We are already working closely with our immediate neighbours

<sup>&</sup>lt;sup>13</sup> There are current two post holders in part time roles that collectively comprise a single 4/5 full time post.

in the East Surrey local authorities, and have a positive relationship with Surrey County Council and the wider Surrey local authorities. We believe that we can build upon these existing relationships to achieve a broad consensus on future plan making. We will explore the opportunities that may be available to meet the objectives of the Duty to Co-operate through our membership of the Coast to Capital Local Enterprise Partnership and Gatwick Diamond groups.

- 4.12 Most of the Surrey local planning authorities have now agreed to the Countywide Local Strategic Statement. This document provides a framework for discussing, considering and potentially reaching and agreed position on strategic planning matters. It is anticipated that this will soon be expanded to include planning for infrastructure, housing growth and consideration of Green Belt related issues.
- 4.13 Our relationship with the Greater London Authority and the London boroughs that neighbour us to the north and northwest, have historically been less developed. We are in the process of reinvigorating this relationship through continued active involvement in the London Plan process. We are in the process of expanding our strategic planning relationship with our immediate neighbours in Greater London this has been positively demonstrated by the successful joint working on the Strategic Housing Market Assessment.
- 4.14 However, we highlight that the differences in national planning policy relating to London actively serve to distance us from our colleagues in London. Indeed, the strategic status of the London Plan provides a dis-incentive to positive co-operation. As a consequence, whilst we may strive for a positive relationship with our neighbours to the north, the desire for fruitful co-operation may not be fully reciprocated. This remains an area of significant risk that lies beyond our ability to influence.
- 4.15 Finally, recent local examination reports are forcing us to reconsider how we respond to specific strategic issues through the Duty. It is becoming clear that the Duty, and how it is discharged, continues to evolve. Previous approaches to discharging the Duty no longer appear to have currency with Local Plan Inspectors who now appear to require that neighbouring authorities prepare and adopt agreed strategies to address key issues. In particular we anticipate that we will be required to demonstrate how we will work collectively with our neighbours (including within our housing market area) to address unmet housing need. We will seek to meet this possibility.

#### **Project Management**

4.16 The new Local Plan is a corporate priority for the Borough Council. Consequently the Local Plan Programme is an important project management document. Progress on the Local Plan will be reported regularly to the Chief Executive, Committee Chairmen and the Borough Council's Leadership Team.

#### **Council Procedures**

- 4.17 For matters relating to the Local Plan, the following reporting protocols will apply:
  - Licensing and Planning Policy Committee will be responsible for the preparation, production and completion of all local plan documents; and
  - Full Council will be responsible for the formal adoption of all local plan documents following consultation and examination.

#### **Risk Management**

- 4.18 The main areas of risk are considered to be:
  - Staff Retention and Turnover: This continues to be an area of significant risk to the Local Plan process. The loss of experienced members of staff remains an issue. Nationally, there is a shortage of experienced planning policy officers. This position is particularly acute in relation to Officers at management and senior level. We remain mindful that any loss of current senior planning policy staff will have an impact on our ability to meet our Local Plan Programme.
  - Changes in Government Legislation: It is important that we maintain forward momentum and prepare our new Local Plan in accordance with national policy. However, amendments to national planning policy may necessitate a change of direction. This has been evidenced by recent introduction of the government's standard methodology and Housing Delivery Test both of which alter the scale of objectively assessed housing need calculated for the Borough. Given the significant differences between our calculation (as set out in our SHMA) and the government's assessment an impact on the timetable was inevitable. It is conceivable that there will be further changes in national planning policy of this magnitude during the new Local Plan period. We will seek to minimise any collateral impacts by consulting with Members on possible solutions, which may include revisiting the Local Plan Programme.
  - Availability of Planning Inspectors: Early notification of our new Local Plan Programme will forewarn the Planning Inspectorate of our anticipated timetable. The Programme will be passed to the Planning Inspectorate to aid their project management of future examinations. The Inspectorate will then enter into Service Level Agreements with us to ensure that they make adequate resources available for future stages of the process. This will help minimise the risk of delays to adoption dates.
  - High Levels of Response to Public Consultation Stages: Experience from elsewhere in Surrey has shown that this can have an impact on the Programme timetable due to the number of responses involved. We will seek to manage this risk by ensuring that an appropriate level of resource can be deployed to manage significant number of responses. Other areas of risk associated with this issue are difficult to predict and manage. We will seek to address some of these areas by adopting a clear communication strategy, which will seek to set out the challenges that the Borough Council faces.

- A wildly evolving Duty to co-operate: The absence of firm guidance and regulation relating to the Duty has always made it an aspect of the process where risk thrives. In the past an exchange of anodyne communications between authorities has proved sufficient to placate Inspectors. This is no longer the case - recent decisions suggest that Inspectors are seeking greater certainty that local planning authorities are genuinely working together to address strategic issues. We believe that this is sound planning and consequently we will rise to this challenge. However, in the continued absence of guidance and regulation risk remains as the Duty may evolve in new and unexpected directions. Our proximity to greater London and the entirely different strategic regime that functions there suggests that risk from that area is high. We will continue to monitor and engage in the development of local plans in both the London Borough of Sutton and the Royal Borough of Kingston. We will try to understand and accommodate the developments in the Duty that spring from those processes. We will continue to seek to work with our partners in London – trying to establish and maintain the best relationship possible under these circumstances.
- Unsettled economic climate post-BREXIT: There is a risk that the period following Brexit will result in unpredictable changes in national planning policy, particularly if the government chooses to pursue an entirely new agenda. This may happen in response to the unsettled economic conditions anticipated following Brexit. Consequently, we may need to prepare new evidence and re-draft policy alongside any developments in this area. This will have an impact upon the proposed timetable. Given the unknown nature of this risk there is little that we can introduce as mitigation.
- Legal Challenge: We will ensure that Local Plan documents are sound, positively prepared, justified, effective and consistent with national planning policy. However, on the basis of recent developments elsewhere in Surrey there is a risk, particularly post-examination, that our new Local Plan becomes the subject of legal challenge; such as a judicial review.
