

SOCIAL DISTANCING

Observe the 2 metre rule

Parks and open spaces are excellent places to exercise and to get fresh air, which is great for your physical and mental wellbeing. However, we will have to close them if people do not follow the Government's social distancing instructions.

To ensure that everyone can continue to use our parks and open spaces safely:

- ★ Keep **two metres** distance from people not in your household
- ★ Do not take part in group fitness activities or group dog walks
- ★ Plan ahead, as many amenities, including playgrounds, toilets and cafes are closed
- ★ Stay local
- ★ Epsom Downs is used to train racehorses every morning from 6am to 12 noon. To allow the training to take place safely, do not visit Epsom Downs before 12 noon and please try to avoid the area entirely if you can
- ★ Take your litter home. Our staff are being diverted to deliver critical services, and we need you to take your rubbish home with you rather than using litter bins or littering
- ★ If you arrive and there are crowds or the car park is busy, choose a different park/open space or return another day or time.

We will be monitoring visitor capacity at our parks and open spaces. If necessary we may need to take immediate action such as closing access to car parks, and other measures to ensure the Government's instructions are followed.
