4. Supporting Statement	9

1. Introduction

The form and content of the Local Plan Programme

- 1.1 The Local Plan Programme sets out a rolling project plan for the production of the documents that together comprise the Epsom & Ewell Local Plan (these formerly being known as Development Plan Documents or DPDs). It provides a timetable for their production so as to monitor progress, as well as identifying the resources required and any potential constraints.
- 1.2 Our progress against the milestones in the Programme is monitored each year in the [Annual Monitoring Report \(AMR\)](#).
- 1.3 The latest version of the Local Plan Programme replaces a previous edition (September 2014).
- 1.4 In accordance with good project management practise we will monitor and review the Local Plan Programme annually and update it accordingly.

The current statutory Development Plan for the Borough

- 1.5 The Development Plan for the Borough is comprised of the following documents:

The Local Plan

- Epsom & Ewell Core Strategy 2007
- Plan E Epsom Town Centre Area Action Plan 2011
- Epsom & Ewell Development Management Policies Document 2015
- Revised Developer Contributions Supplementary Planning Document 2014
- Revised Sustainable Design Supplementary Planning Document 2016
- Parking Standards for Residential Development 2015

Surrey-wide Documents

- Surrey Minerals Plan Core Strategy 2011
- Surrey Waste Plan 2008

- 1.6 In addition to the above documents we have also prepared and produced a number of useful and highly valued supplementary planning guidance documents. These amplify the policies and proposals of the Local Plan. Such additional local guidance is considered necessary and for that reason is believed to be consistent with national planning policy. The main role of these documents is to clarify and support local policy and it may be taken into account as a material consideration in relation to the determination of planning applications. These include the following documents:
- Biodiversity and Planning in Epsom & Ewell 2012
 - Solar Panel Guidance for Domestic Installation 2011
 - Shopfront Design Guide 2012
 - Householder Applications 2004
 - Single plot and other types of residential infill development 2003
- 1.7 During the period covered by this Programme we anticipate that most of the guidance contained within the above documents will be reviewed as part of the preparation and production of the Design Quality Guide (a new supplementary planning document). This new publication will provide detailed supplementary guidance to the design policies contained within the Development Management Policies Document 2015. It is anticipated that a draft version of the Design Quality Guide will be subject to public consultation during the second half of 2016. Subject to the outcome of that consultation and the agreement of the Licensing and Planning Policy Committee, the Guide could become part of the wider Local Plan during the first quarter of 2017.
- 1.8 Following the adoption of the Design Quality Guide we do not anticipate the need to produce any additional supplementary planning documents during the period covered by this Programme.

2. The Partial Review of the Core Strategy

Role & Subject

2.1 We anticipate that the partial review of the Core Strategy will encompass the following policy components:

- Revision of the Borough wide housing target to take into account of an objectively assessed demand¹
- A Strategic review of our Green Belt²
- The identification of a deliverable housing supply strategy³
- A review of our affordable housing delivery policy⁴
- A new policy approach setting out how we will meet the accommodation needs of the Traveller Community⁵
- New policies setting our approach towards heritage assets – specifically in relation to the identification and designation of locally listed buildings and structures

2.2 We also anticipate that the revised Core Strategy will include new site allocation policies relating to:

- Green Infrastructure
- Major developed sites in the Green Belt
- Housing delivery
- Employment sites
- Retail centres
- Epsom General Hospital
- The University for the Creative Arts
- The Kiln Lane Link major transport scheme

2.3 Some of these policies and site allocations were originally contained within the Site Allocations Document.

Coverage

2.4 The document covers the whole of the Borough.

¹ As currently set out in Core Strategy Policy CS7.

² As currently set out in Core Strategy Policy CS2.

³ As set out in Core Strategy Policy CS8, which currently states that new housing will be located within the defined built up area and within the then remaining Hospital Cluster development sites, which have subsequently been largely built-out.

⁴ As currently contained within Core Strategy Policy CS9

⁵ The new policy will replace the approach set out under Core Strategy Policy CS10.

Conformity

- 2.5 The document will be in conformity with the NPPF. The document will set out the scale of local housing need and the broad areas of the Borough that will be brought forward to deliver future housing. The document will also set out the Council's approach to meeting local affordable housing need through the development process.

Timetable

<i>Key Stages</i>	<i>Dates</i>
Issues & Options Consultation	February – April 2017
Publication	September 2017
Pre-Submission Consultation	September – October 2017
Date of Submission to Secretary of State	October – November 2017
Pre-Examination Meeting	December 2017
Public Hearing	January/ February 2018
Estimated Date for Adoption	July 2018

Arrangement for Production

Organisational Lead

Head of Place Development

Political Management

- 2.6 The review process will be considered by the Council's Licensing & Planning Policy Committee, who are responsible for approving draft policy options for public consultation and the subsequent Pre-submission stages.
- 2.7 Full Council approval will be required for the final adoption stage.

Internal Resources

Planning Policy Manager
Senior Planning Policy Officer
Planning Policy Officers
Graduate Planning Officer (Policy)

Other Officers as required – likely to be deployed from within the Place Development Team

External Resources

- 2.8 Consultants will be engaged to aid the production of the necessary evidence base documents. External expertise will be required in relation to the identification of an 'objectively assessed housing need' and in preparing an assessment of the Borough's Green Belt; both as required under national planning policy. Internal knowledge and other resources will be deployed in order to optimise the value of external resources. Further studies will be produced, either in-house or by external consultants, as necessary. For example, an updated Strategic Housing and Employment Land Availability Assessment and a strategic Green Belt review.
- 2.9 The associated sustainability appraisal report supporting the policy review will be carried out in-house.

Stakeholder Resources

- 2.10 We will work closely with neighbouring planning authorities and other strategic partners to discharge our duty to co-operate. Where it is clearly demonstrated that we do not have sufficient land supply or infrastructure capacity to accommodate all of our identified growth needs we will work with our neighbours and other strategic partners on how those needs could be met across a wider area. It is anticipated that this will form a critical part of this particular review process and will require the deployment of resources from across the Borough Council, specifically requiring input from Committee Chairmen and Senior Officers.
- 2.11 We will work closely with local partners to ensure that the emerging policies contribute positively to meeting our strategic objectives. Specifically we will seek to ensure that future community infrastructure needs are taken into account during the preparation of new policies.
- 2.12 We will engage directly with key local community groups including local residents' associations, local political party groupings and other local interest groups, such as the Epsom Civic Society and the Campaign to Protect Rural England. Representatives of stakeholder groups will be invited to attend meetings or surgery sessions, where they can informally discuss issues and options raised in the consultation.

Community and Stakeholder Involvement

- 2.13 The local community, specific consultation bodies and key stakeholders, including the developers, will be invited to take part in the consultation process, with a view to identifying issues and working up suitable deliverable and developable options that accord with the NPPF.

3. The Evidence Base

- 3.1 The partial review of the Core Strategy will be supported and informed by new evidence and a refresh of existing technical studies. This work will be in conformity with national planning policy and guidance. It will also take account of relevant existing technical evidence that is available across north east Surrey and south west London.

Timetable

Documents	Publication Dates
Strategic Housing Market Assessment ⁶	July 2016
Green Belt Study	January 2017
Strategic Housing and Employment Land Availability Assessment	February 2017
Traveller Accommodation Assessment	February 2017
Constraints Study	February 2017

- 3.2 The preparation and production of the above technical studies may include proportionate and necessary stakeholder engagement. This is most likely to relate to the methodology used by the technical study in question, rather than the outputs or conclusions. Any party who wishes to challenge the outputs from these technical studies may do so through the Local Plan process, where they have an opportunity to present alternative evidence.

⁶ Prepared in partnership with Royal Borough of Kingston, Elmbridge and Mole Valley Borough Councils.

4. Supporting Statement

Monitoring

- 4.1 Monitoring continues to be an important part of the planning-making process and will help gauge the effectiveness of policies and proposals. We will monitor a range of indicators to assess whether the policies and proposals are meeting the objectives set out in the Core Strategy. The key findings will be published in the Annual Monitoring Report (AMR). The most recent, and previous AMRs are available to view on the Borough Council's website. The Local Plan AMR is normally of a report to the Council's Licensing & Planning Policy Committee at the close of the financial year, following which it is published on the Council's website.

Reviewing the Programme

- 4.2 We will continuously monitor progress on the implementation of the Local Plan Programme. Progress will be monitored against the proposed timetable for the partial review of the Core Strategy. Where milestones have not been reached and there has been a delay in the process, we will consider appropriate actions to ensure that positive momentum is maintained. When appropriate we will amend the Programme. Any changes to the Programme will require approval by the Council's Licensing & Planning Policy Committee.

Strategic Environmental Assessments & Sustainability Appraisals

- 4.3 Strategic Environmental Assessments of policies, proposals and plans are required under the European Strategic Environmental Assessment Directive 2001/42/EC. These are required for plans and proposals that are likely to have a significant affect on the environment.
- 4.4 Sustainability Appraisals differ in that they are a social, economic and environmental assessment. We believe it is important to take an integrated approach towards both the Strategic Environmental Assessment and Sustainability Appraisal and to consider the implications and alternatives at an early stage. This will ensure that our Local Plan documents reflect sustainable development objectives. The requirements of a Strategic Environmental Assessment will be incorporated into the Sustainability Appraisal, which will be undertaken on the emerging policies when bringing forward new Local Plan documents.

Resources

- 4.5 In the past funding from the Housing Planning Delivery Grant was allocated to assist in the plan making process. This has helped fund external expertise to undertake specialist work on technical papers. It is proposed that remaining Housing Planning Delivery Grant monies and other sources of funding, including the New Homes Bonus, will be used to finance future work.
- 4.6 Staffing resources for the timely production of the Local Plan remain a critical issue (see Risk Management section below). At present, the following in-house resources can be drawn upon during the period covered by the Programme:
- Planning Policy Manager
 - Senior Planning Policy Officer
 - Planning Policy Officers
 - Graduate Planning Officer (Policy)
 - Other occasional staff resources including the Head of Planning and Building Control, GIS officer, and the Strategic Housing Manager and other Service officers
- 4.7 We will continue to use external sources of expertise where appropriate, such as on specialist topics or where there is no existing capacity. It is anticipated that Surrey County Council will continue to provide assistance with transport and infrastructure capacity matters. Additionally the Planning Policy Team continues to promote joint working initiatives, whenever these are practicable and relevant, with the other Local Authorities in East Surrey to help bridge the potential staff resource gap. This has worked most effectively in the preparation of technical evidence.
- 4.8 Members are kept informed of progress on the Local Plan primarily through Licensing & Planning Policy Committee meetings. Occasionally we run special evening sessions for all Members to provide them with additional training or an opportunity to feed their comments into the plan making process.

Joint Working – The Duty to Co-operate

- 4.9 There are no proposals to set up a joint planning board with neighbouring authorities. Nevertheless, we continue to work with other Surrey Districts and with Surrey County Council on sharing best practice, undertaking Sustainability Appraisals and where appropriate undertaking other initiatives. We have also been actively involved in joint projects with neighbouring authorities on subjects such as establishing a methodology for preparing Traveller Accommodation Assessments, preparing Strategic Housing Market Assessments, and

managing flood risk (specifically in relation to the Hogsmill River). We continue to work effectively with colleagues across Surrey on strategic infrastructure planning.

- 4.10 We continue to explore meaningful mechanisms by which we can discharge our Duty to Co-operate with neighbouring local planning authorities and other key partners. We are already working closely with our immediate neighbours in the East Surrey local authorities, and have a positive relationship with Surrey County Council and the wider Surrey local authorities. We believe that we can build upon these existing relationships to achieve a broad consensus on future plan making. We will explore the opportunities that may be available to meet the objectives of the Duty to Co-operate through our membership of the Coast to Capital Local Enterprise Partnership and Gatwick Diamond groups.
- 4.11 Most of the Surrey local planning authorities have now agreed to the County-wide Local Strategic Statement. This document provides a framework for discussing, considering and potentially reaching and agreed position on strategic planning matters. It is anticipated that this will soon be expanded to include planning for infrastructure, housing growth and consideration of Green Belt related issues.
- 4.12 Our relationship with the Greater London Authority and the London boroughs that neighbour us to the north and northwest, have historically been less developed. We are in the process of reinvigorating this relationship through active involvement in the London Plan process. We are in the process of expanding our strategic planning relationship with our immediate neighbours in Greater London – this has been positively demonstrated by the successful joint working on the Strategic Housing Market Assessment.

Project Management

- 4.13 The review of the Local Plan is a corporate priority for the Borough Council. Consequently the Local Plan Programme is an important project management document. Progress on the Local Plan will be reported regularly to the Chief Executive, Committee Chairmen and the Borough Council's Leadership Team.

Council Procedures

- 4.14 For matters relating to the Local Plan, the following reporting protocols will apply:
- Licensing and Planning Policy Committee will be responsible for the preparation and production of all local plan documents; and

- Full Council will be responsible for the formal adoption of all local plan documents following consultation and examination.

Risk Management

4.15 The main areas of risk are considered to be:

- **Staff Retention and Turnover:** The staffing of the Planning Policy Team has been relatively stable for the last few years. However, staff turnover has become an issue with the recruitment of replacement staff causing delay to the process. Recruiting and retaining experienced staff is an area of risk. There is currently a shortage of experienced planning policy officers, which has compounded the situation. The resolution of this problem is a high priority for the Borough Council and we are pursuing a number of different solutions in order to reduce risk and provide resilience.
- **Availability of Planning Inspectors:** Early notification of our timetable will forewarn the Planning Inspectorate of our anticipated timetable. The Programme will be passed to the Planning Inspectorate to aid their project management of future examinations. The Inspectorate will then enter into Service Level Agreements with us to ensure adequate resources are made available for the various examinations. This will help minimise the risk of delays to adoption dates.
- **Legal Challenge:** We will ensure that Local Plan documents are sound, positively prepared, justified, effective and consistent with national planning policy.
- **Wider Corporate Demands:** Work on the Local Plan will be monitored to ensure that sufficient time and resources are being allocated. The Local Plan has many challenges of its own – adapting the process to emerging guidance and advice, undertaking extensive monitoring, managing consultants to produce parts of the evidence base, embarking on significant amounts of consultation both internally and externally, writing numerous policy documents – but there are also a number of other pressures on the staff resources available. These include involvement in other corporate projects; delivering planning policy objectives on the ground; publications of new planning documents and advice and reporting their implications; providing policy advice to the public and stakeholders (especially pre-application discussions); implementing the Duty to Co-operate; and providing support to other Services within the Council.
