- I. put in place processes and teams to ensure that nationally agreed changes affecting the powers and duties of local government can be analysed and, where appropriate, implemented as soon as practicable*
- II. seek support and advice from the Local Government Association as well as the national Government on transitional arrangements*
- III. respond quickly and in detail to any consultation requested by the national Government*
- IV. work with local partners and groups in our community to ensure a smooth, efficient and supportive transition over the next few years*

This Council also notes the recently reported national rise in racism, xenophobia and hate crimes following the referendum result. This Council condemns such behaviour, and Members and Officers will work with local partners and groups to combat and prevent racism and xenophobia and to ensure that all in our community feel safe and supported.
